

PowerScribe 360 Reporting and mPower Clinical Analytics

Drive Competitive Advantage and enable
your Imaging 3.0™ Toolkit

Nuance® mPower™ Clinical Analytics

unlocks actionable information that maximizes productivity and facilitates the transition to value-based imaging by contributing to improved:

- Monitor and improve clinical quality and patient safety
- Practice productivity

Challenges

1. Monitor and improve clinical quality
2. Assure patient safety
3. Optimize productivity
4. Analyze patient outcomes

Solutions

–Enterprise search

Proprietary search and natural language processing speed access to detailed, actionable information in PowerScribe® 360 reports and other sources.

–Quality analytics

mPower Clinical Analytics enables a radiology practice to measure how their clinical contributions improve quality of care.

–Business intelligence

mPower Clinical Analytics uniquely supports radiology practices by optimizing and refining business processes and improving operational efficiency.

Outcomes

–Reduce length of stay

By tracking inpatient recommendations and through coordinated care, mPower Clinical Analytics has helped to decrease length of stay for patients requiring interventional procedures by up to 3 days.

–Track and communicate follow-up recommendations

Using proprietary natural language processing, mPower Clinical Analytics automatically extracts follow-up recommendations from reports and identifies overdue examinations to avoid adverse patient outcomes and reduce medicolegal risk. mPower Clinical Analytics now allows users to easily communicate follow-up recommendations through PowerScribe 360 Critical Results.

–Increases practice profitability

Empower practice managers to develop an operationally efficient organization that profitably delivers effective clinical care.

–Measure contributions to value-based imaging

Success in a value-based imaging world requires radiology to contribute directly to improved outcomes by managing imaging appropriateness, decision support and image quality.

–Provides insights, not just data

The mPower Clinical Analytics interactive approach instantly provides easy to understand, detailed and actionable information that eliminates the time consuming, iterative process typical of data analysis.

Reduce length of stay

Improve compliance

Increase revenues

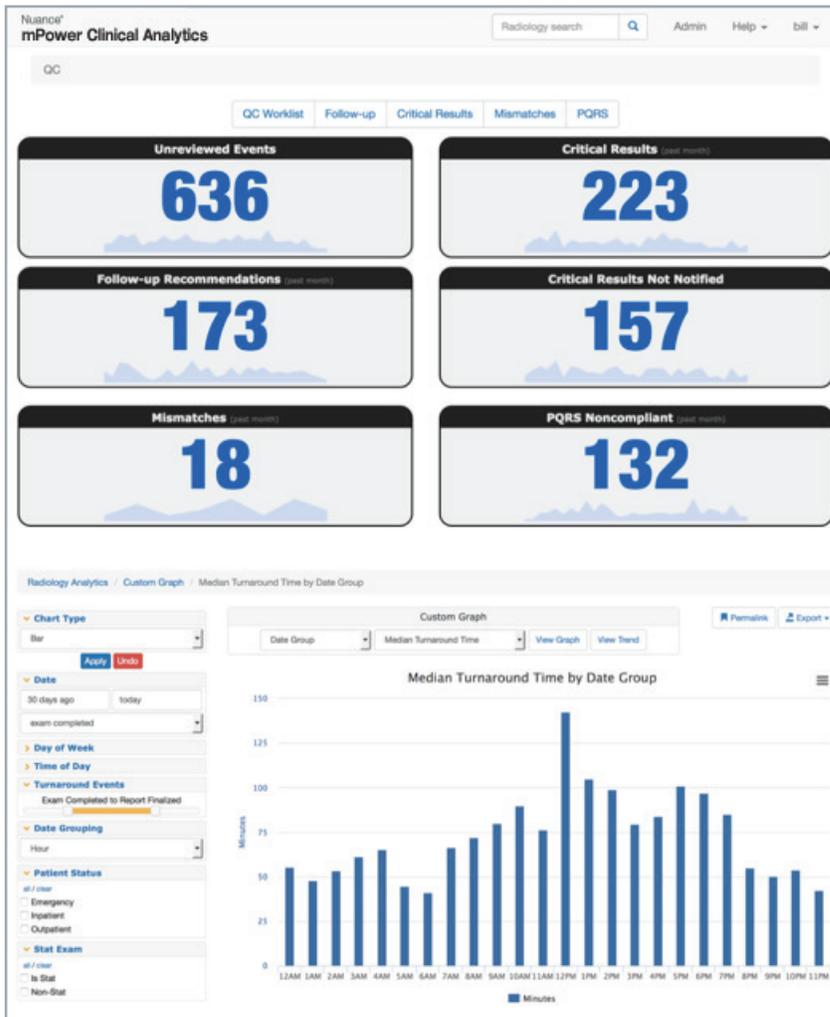

Decrease errors and
medicolegal risk

Evaluate outcomes and
quality

Optimize productivity
and efficiency

“With ICD-10, it is imperative that we eliminate reporting deficiencies and discrepancies. mPower Clinical Analytics has enabled us to identify and correct laterality and other reporting mismatches prior to submitting the reports for billing, which has undoubtedly improved our bottom line.”

Samir Patel, MD
Director, Value Management Program
Board of Directors member,
Elkhart General Hospital
Elkhart, IN

“We reduced length of stay by 3 days...and it keeps dropping every quarter we measure it.”

Syed Zaidi, MD
President and CEO
Radiology Associates of Canton
Canton, OH

“Information is power... eight days later we had a 31% increase in productivity.”

Patrick Browning, MD
Chief of Imaging Emeritus
Sutter Health
Sacramento, CA

Nuance provides a more natural and insightful approach to clinical documentation, freeing clinicians to spend more time caring for their patients. Nuance healthcare solutions capture and communicate more than 300 million patient stories each year helping more than 500,000 clinicians in 10,000 healthcare organizations globally. Nuance’s award-winning clinical speech recognition, medical transcription, CDI, coding, quality and diagnostic imaging solutions provide a more complete and accurate view of patient care, which drives meaningful clinical and financial outcomes.

About Nuance Communications, Inc.

Nuance Communications, Inc. is a leading provider of voice and language solutions for businesses and consumers around the world. Its technologies, applications and services make the user experience more compelling by transforming the way people interact with devices and systems. Every day, millions of users and thousands of businesses experience Nuance’s proven applications. For more information, visit www.nuance.com/healthcare or call 1-877-805-5902.
