

IMPROVE CODER PRODUCTIVITY AND ACCURACY

Quantim Solution

Advancing HIM Through Innovation

CHALLENGE:

How do I deliver improved HIM performance to help mitigate the risk of impending ICD-10 productivity losses while increasing efficiencies across the enterprise?

SOLUTION:

Whether you are a current Nuance® Healthcare client or new to Nuance Healthcare’s advanced HIM solutions, we understand that you need innovative, easy-to-use solutions that address your current and future challenges. Nuance Healthcare’s Quantim® solution will deliver improved HIM performance to help mitigate the risk of impending ICD-10 productivity losses while increasing efficiencies across the enterprise.

Nuance Healthcare’s Quantim solution improves coder productivity and accuracy, while enabling best practices every step of the way. This transformational solution adds an advanced user interface with intuitive search tools and Computer-Assisted Coding capabilities to our integrated solution, taking Quantim to a new level of performance for HIM professionals.

QUANTIM’S INTEGRATED COMPONENTS INCLUDE:

- Coding and Compliance
- Computer-Assisted Coding
- Abstracting
- Clinical Documentation Integrity
- Electronic Document Management
- Record Management
- Workflow

KEY BENEFITS

- Ensures data quality & accuracy
- Improves productivity
- Enables best practices
- Provides a multi-facility, enterprise-wide platform

Smart search tools make it easy to find what you’re looking for in the ICD-10-PCS code book.

This proven solution will transform HIM processes by delivering powerful technology that ensures data quality and accuracy; improves productivity; enables best practices and provides HIM professionals with a fully integrated, multi-facility, enterprise HIM system.

HOW QUANTIM ENSURES DATA QUALITY AND ACCURACY:

- Ensures consistent application of both ICD-9 and ICD-10 official coding rules, conventions, guidelines and definitions within one product while supporting dual coding requirements
- Enables coders to query providers to clarify or request additional documentation to prohibit conflicting, incomplete or ambiguous information
- Enables early system testing with payers to ensure successful electronic billing under ICD-10, helping to minimize remittance delays

HOW QUANTIM IMPROVES PRODUCTIVITY:

- Delivers consistent, accurate and compliant coding results and transitions the coders' role to that of editor by eliminating manual processes
- Facilitates eHIM by enabling healthcare organizations to manage complex HIM business processes and data flow electronically in a paperless environment
- Automates productivity monitoring and reduces administrative costs, while increasing individual accountability

HOW QUANTIM ENABLES BEST PRACTICES:

- Ensures the integrity of coded data and the ability to turn it into functional information for reporting purposes
- Quantim's accurate and complete coded data enhances healthcare delivery; research and analysis; reimbursement; and policy-making processes

- Enables HIM professionals to maintain an accurate and meaningful database reflective of the patient's encounter, including the severity of illness, use of resources and quality of care provided

QUANTIM PROVIDES A MULTI-FACILITY, ENTERPRISE-WIDE PLATFORM:

- Fully-integrated platform of multiple HIM applications share a common database; user interface; reporting and analytics; and computational routines, files and tables within a single solution
- Innovative, flexible technology securely supports all aspects of an HIM professional's work environment, be it onsite or remote, without losing functionality or decreasing productivity
- Multi-facility ready: supports continued business line growth and additional facilities within a single solution
- Comprehensive, extensive and flexible reporting capabilities allow full access to the entire breadth of HIM information available

ABOUT NUANCE HEALTHCARE

Nuance Healthcare, a division of Nuance Communications, is the market leader in creating clinical understanding solutions that drive smart, efficient decisions across healthcare. As the largest clinical documentation provider in the U.S., Nuance provides solutions and services that improve the entire clinical documentation process—from capture of the complete patient record to clinical documentation improvement, coding, compliance and appropriate reimbursement. More than 450,000 physicians and 10,000 healthcare facilities worldwide leverage Nuance's award-winning voice-enabled clinical documentation and analytics solutions to support the physician in any clinical workflow on any device.
